

Dear reviewer,

Thank you for agreeing to review imagineRio Narratives: A Map-based Writing App for Rio de Janeiro.

There are three ways to access the article:

1. On GitHub

<https://github.com/jdh-observer/jdh002-m734RWDSL09C>

From there, you will be able to download the notebook and the attached files, or to launch the notebook on MyBinder by pushing the 'launch binder' button.

2. On MyBinder

<https://mybinder.org/v2/gh/imaginerio/narratives-jdh/main?filepath=narratives.ipynb>

On MyBinder, bibliographic references will not be visible, but you will be able to run the code. Beware, the loading time can be quite long.

3. Within the Journal of Digital History website

[here](#)

Please note that the article (the notebook) can be large: expect a rather long loading time.

Best regards,

Managing editor, Frédéric Clavert, Journal of Digital History
